

Atom Series is available in two display size: 9 and 12 inches

## ATOM Series

The Atom Series is the multifunction marine system designed to put every detail at your fingertips.

### Fully customizable display

Designed to let you choose what to see and what to hide: map, FF, compass bar, data boxes.

### Software updates come easy

Keep your chart plotter always up to date, thanks to the Wi-Fi connectivity.

### Mirror control app

What about duplicating your plotter on your tablet? It's easy: establishing a Wi-Fi connection, you can use your tablet as a touchscreen chart plotter!

### FF CHIRP Technology

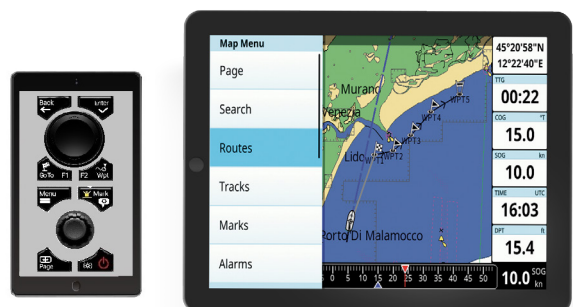

The new FF CHIRP eliminates surface clutter and column noise, for hi-fi visibility.

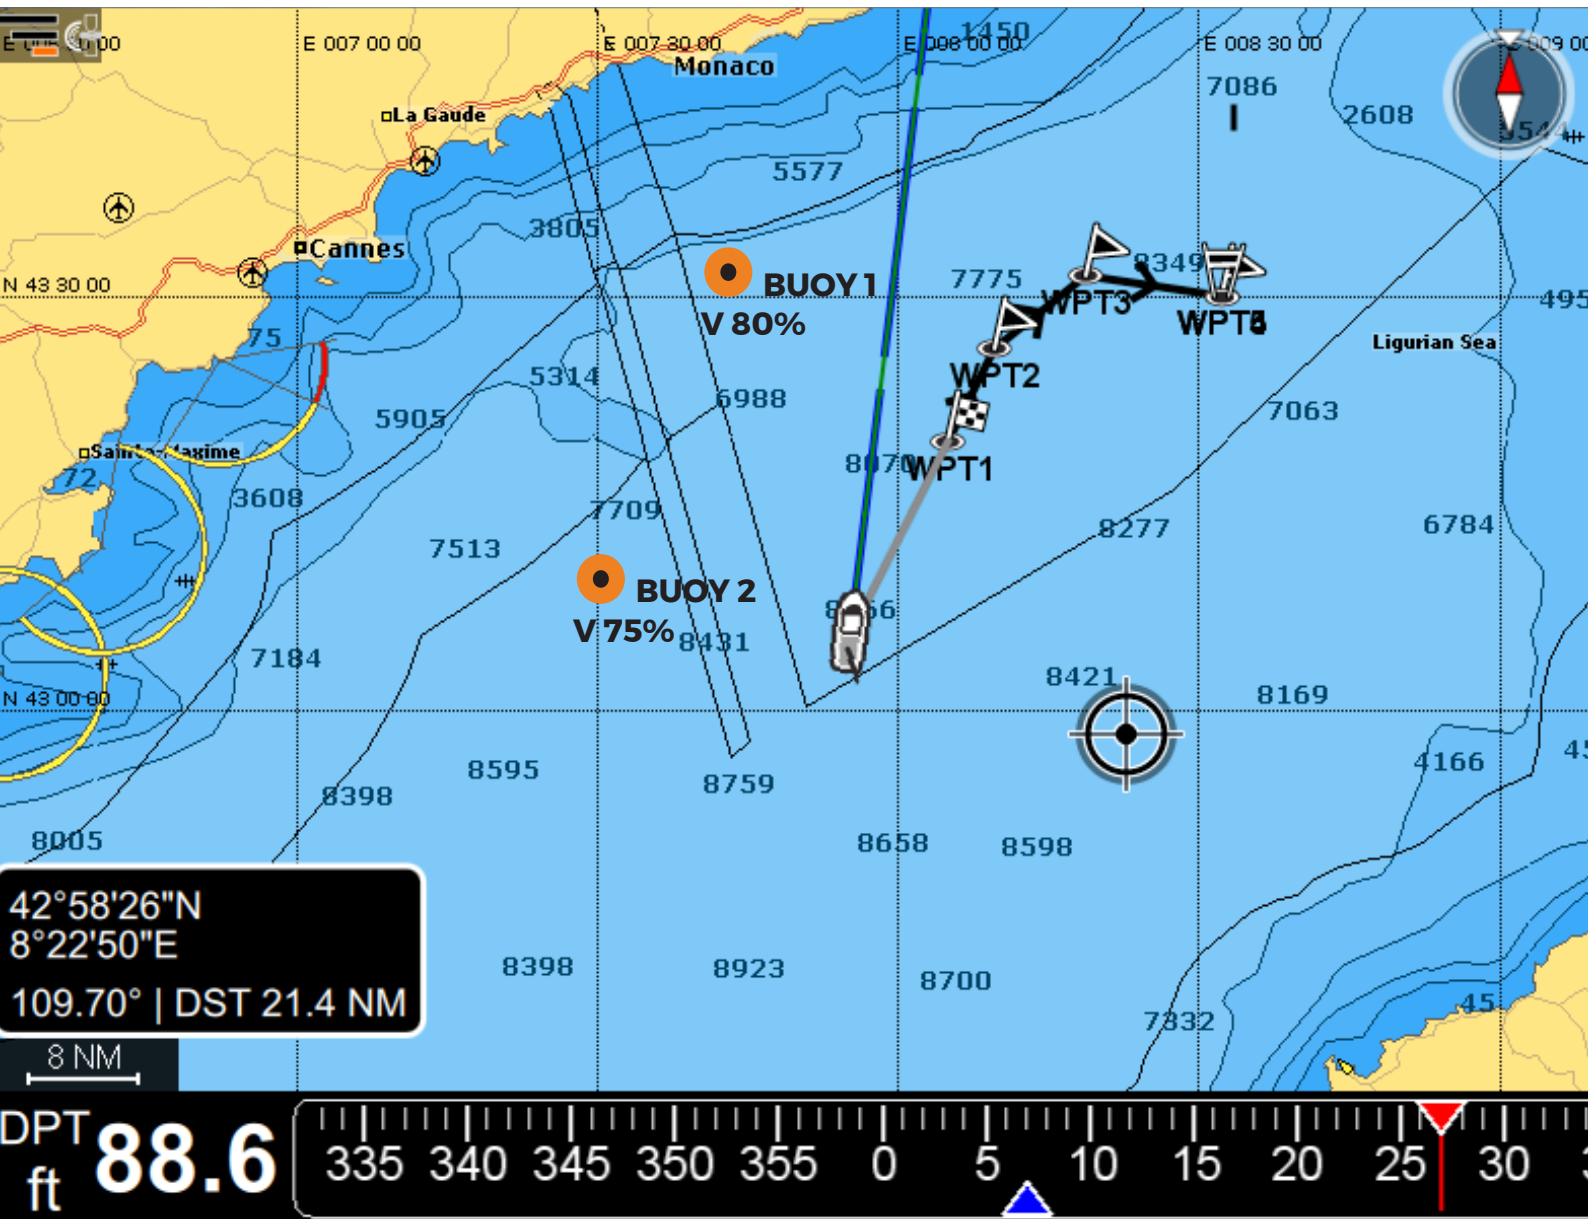

### Join the CaptainCloud

Synchronize your data with CaptainCloud and manage routes, tracks and marks from any connected device. Build your favourite routes easily at home, and find them ready on your chartplotter!

### Remote control app

You don't need to buy a remote control anymore: thanks to the RC App, connect your phone via BLE and enjoy the simplest way to interact with your chart plotter. BLE ensures a low battery consumption.

### Keys

### Joystick

### Rotor

### Touch

### NMEA 0183 & 2000

The NMEA interface can transform your chart plotter in a multifunctional display to control your ais, autopilot, engine etc.

### 3 x User customizable keys

Program F keys give you instant access to your favorite functions.

### Ultra bright display

The Atom series displays ensure clarity and contrast in all light conditions.

### Hybrid interface

NavPro series maximizes the benefits on the touch en with the reliability of an ergonomic keyboard.

The rotary knob gives you a fast and precise control in every condition, while the touchscreen allows the best experience in map exploration and route building.
